

# Biology: Genetic Disorder Slide Show Resources

[Sled](#) Statewide Library Electronic Doorway a variety of resources if links do not work go to main site. See teacher or librarian for passwords if needed.

- [Academic Search Premier](#)
- [Funk & Wagnalls New World Encyclopedia](#)
- [Health Source - Consumer Edition](#)
- [Today's Science](#)
- [Gale in Context](#)

Once you are in a resource you can cite it, print it, save it, and send it to google drive. Make sure you are citing your sources for your project look for APA citation example. All resources can be cited need more information check library

## KPBS Resources

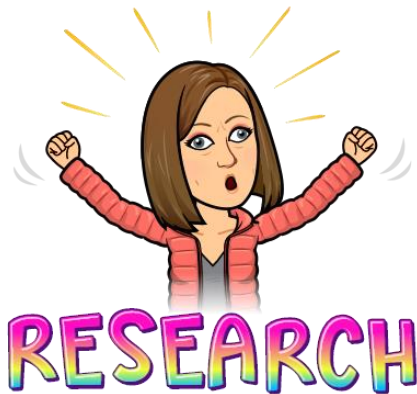

- [WorldBook](#) password if needed: information and kpbsd
- [Discovery Education](#) login with computer user name and password
- KCHS Library Website: [Salem Kenai Central Online](#) Collection Look at the [Genetics & Inherited Conditions](#)
- (This is an ebook so book requirement met!)  
Password is 075lib

Some websites that may help:

- [Genetics Home Reference](#)
- [Patient Resources | Genetic Disease Foundation](#)
- [Genetic Disease Foundation - NORD \(National Organization ...](#)
- [MedlinePlus](#)
- [NIH National Human Genome Research Institute](#)
- [Genetic Disorders ACOG](#)
- [Learn Genetics](#)

When searching put your disease in quotes if you are having trouble finding a specific disease or disorder. If you need to broaden, your search to look for the specific genetic diseases or disorders. Make sure you do not use Wikipedia as a source. You may look at references at the bottom of the page to find the resources used in creating that page some may work for your project. Don't forget to record where you got your information. Usually the last slide in your presentation is for resources.

As always, if you need help feel free to email [jgann@kpbsd.k12.ak.us](mailto:jgann@kpbsd.k12.ak.us) The [KCHS library website](#) also has many other resources feel free to take a look.
